EDUCATION

•**Bachelor of Technology in Computer Science and Engineering()**   *2019-23*
CT Group of Institutes of Engineering and Management, Jalandhar   CGPA: 6.98

PERSONAL PROJECTS

• **JCA TAXI (in house -project)**

As React Developer at Richestsoft, I developed the JCA Taxi Admin Panel, designed to streamline taxi service management .

– I developed the front-end of the JCA Taxi Admin Panel, focusing on features such as managing and adding agencies, vehicle registration, and driver assignments
– I created an intuitive and user-friendly interface to facilitate efficient administrative tasks and enhance the overall user experience. My work involved integrating various front-end components to ensure seamless functionality and a streamlined process for managing taxi operations..
– Technology Used: Material Ui, Reactjs.

• **Code Store**

Developed a comprehensive e-commerce platform for digital game products, including an admin panel and user-facing website.

– The admin panel allows for managing and updating product listings, such as in-game currencies for Free Fire, PUBG, and Clash of Clans, and handling website content.
– .The user-friendly website facilitates seamless browsing and purchasing of digital items with integrated payment solutions, ensuring a responsive and efficient experience across devices.
– Technology Used for Admin: Reactjs, Material UI.
– Technology Used for Website: NextJs, Bootsrap .

EXPERIENCE

–**Worked as React Developer**   *Sep 2023 - Present*

RichestSoft   WFO
  * **Front-End Development:** Advanced skills in React and Next.js through hands-on projects, focusing on building dynamic, high-performance web applications with modern front-end technologies. .
  * **Backend Experience:** Completed a personal project using Node.js, Express, and Sequelize to develop a robust backend system, enhancing expertise in API development, database management .
  * **Corporate Acumen:** Developed a strong understanding of corporate practices, including project management, cross-functional teamwork, and professional communication, enhancing my ability to navigate and contribute effectively in a dynamic business environment.

–**ThinkNEXT Technologies Pvt. Ltd Mern Stack Internship**   *Feb 2023 - Aug 2023*

AICTE-Eduskills   Offline
  * **MERN Stack Fundamentals:** Acquired a solid foundation in MERN stack technologies (MongoDB, Express.js, React, Node.js), enabling the development of full-stack applications with seamless integration between front-end and back-end components..
  * **Full-Stack Development:** Gained practical experience in building and deploying scalable web applications using MERN stack principles, including database management with MongoDB, server-side logic with Express and Node.js, and dynamic user interfaces with React

TECHNICAL SKILLS AND INTERESTS

Languages Javascript, HTML+CSS
Libraries : Node.js, Express.js, ReactJs
Web Dev Tools: ReduxDevTool, VScode, Git, Github
Frameworks: ReactJs ,NextJs
Cloud/Databases:MongoDb, Relational Database(mySql)
Relevent Coursework: Operating Systems, Object Oriented Programming, Database Management System, Software Engineering.
Areas of Interest: Web Development, Cloud Computing .
Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability
